CNAO
Centro Nazionale di Adroterapia Oncologica

Focus on Paediatric Radiation Oncology

Objectives

The objective of this webinar is to concentrate on the role of radiotherapy in the multidisciplinary management of primary oncological pathologies in pediatric patients. Respected European pediatric Radiation Oncologists will share their wealth of experience and expertise during this virtual meeting, with a specific focus on the use of photon and proton radiotherapy in addressing primary solid tumors affecting children. The meeting aims to share critical clinical outcomes and potential side effects associated with various radiotherapy techniques tailored to specific tumors. There will be a particular emphasis on the application of proton therapy. Proton therapy, acknowledged as a primary intervention in pediatric cancers, is currently undergoing significant expansion in Europe. This webinar intends to illuminate its advantages, limitations, and future advancements within the field of pediatric cancer treatment.

Focus on Paediatric Radiation Oncology

Wednesday, March 6th 2024

Program

09.15	Participant registration	10.25	Medulloblastoma <i>Laetitia Padovani</i>	11.50	Neuroblastoma <i>Tom Boterberg</i>
09.30	Welcome, Introduction and Aim <i>Ester Orlandi, Sabina Vennarini</i>	10.40	High Grade Glioma <i>Valentini Chiara</i>	12.05	Retinoblastoma <i>Alessia Pica</i>
09.40	Atypical Teratoid Rhabdoid Tumor <i>Yasmine Lassen</i>	10.55	Germinoma and Non-Germinoma <i>Claire Alapetite</i>	12.20	Nephroblastoma <i>Geert Janssens, Xavier Muracciole</i>
09.55	Craniopharyngioma <i>Claire Alapetite</i>	11.10	Q&A Session	12.45	Q&A and take home messages <i>Sabina Vennarini</i>
10.10	Ependymoma <i>Stephanie Bolle</i>	11.30	Sarcoma <i>Beate Timmerman</i>	13.00	Adjourn

Focus on Paediatric Radiation Oncology

Addressed to

Medical oncologists, radiation oncologists, radiologists, anesthesiologists, general surgeons, maxillo-facial surgeons, neurosurgeon, otolaryngologists, nuclear medicine physicians, neuroradiologists, neurologists, pediatricians, medical physicists, radiology technicians.

CME

Based on the in force regulations approved by the CNFC, Accademia Nazionale di Medicina (provider n. 31) will assign to the activity (31-404670): **4,5 CME credits**
Training objective: professional and technical content (knowledge and skills) specific to each profession, specialization and highly specialized activity. Rare disease.

The credit certification for the webinar is subject to:

- Professions/specializations should correspond to those which have been accredited for CME;
- Attendance at the 100% of the webinar live on the platform fad.accmed.org
- the completion of the Meeting evaluation online form;
- completion of the final test (at least 75% of correct answers). 5 attempt admitted.

The test and the meeting evaluation form must be completed within 3 days from the end of the event.

Registration

Participation to the webinar is free, places available are limited.

It's possible to register online at

<https://fad.accmed.org/course/info.php?id=1493>

by **28th february**.

Registrations will be accepted in the chronological order of arrival and will be confirmed by e-mail.
